

From Ultrastructure to Function

A Tribute to
Werner W. Franke
1940-2022

The symposium From Ultrastructure to Function is dedicated to the late Professor Werner W. Franke. His recent death has made us aware of the incredible breadth of his impact on cell biology. The symposium will showcase the scientific accomplishments of his lab and explore future directions of research.

The two-day symposium will take place from
September 27 to September 28, 2023

at the German Cancer Research Center in Heidelberg.

It will feature keynote speakers and other experts, many of them former members of the Franke lab, on topics relating to nuclear architecture, intermediate filaments and cell junctions.

Speakers

Roland Moll - Universität Marburg

Ada Levy Olins - University of New England

Donald E. Olins - University of New England

Ricardo Benavente - Universität Würzburg

Reimer Stick - Universität Bremen

Jan-Michael Peters - IMP Wien

Fiona Watt - EMBL Heidelberg

Harald Herrmann - Universität Erlangen

Frans Ramaekers - Maastricht University

Roy Quinlan - Durham University

Nikolas Haass - University of Queensland

Ingrid Moll - Universität Hamburg

Sergey Troyanovsky - Northwestern University Chicago

Mareike Barth - RWTH Aachen University

Rudolf Leube - RWTH Aachen University

Benjamin Geiger - The Weizmann Institute Rehovot

Sandra Iden - Universität des Saarlandes

Klaus Pantel - Universität Hamburg

Ian Mather - University of Maryland

Beate Straub - Universität Mainz

Thomas Magin - Universität Leipzig

Organizing Committee

Rudolf Leube, Thomas Magin,
Harald Herrmann, Andreas Trumpp

Registration:

mandatory until September 01, 2023
